Care of the Tripod
Do not apply any grease or oil to this product. Clean with a mild detergent and a soft cloth only. Do not use close to flame. Avoid extreme heat.

Equipment that can be used with this Tripod
This product is designed to withstand equipment up to 5kgs. Please do not use equipment exceeding this limit.

Equipment with uneven weight distribution should not be panned by the Quick Shoe. A loose mounting screw may go unnoticed, and result in a sudden accidental fall.

Carrying a tripod with a camera left on can result in unexpected accidents. We therefore, recommend that you remove your camera when carrying the tripod.

How to change the Pan Head fixing screw
1. Move the Plate Cover down.
2. Loosen the small screw in about three turnings with an Allen wrench (2mm width).
3. Loosen the Plate without removing the small screw.
4. Loosen the Pan Head fixing screw and pull it out. Then, screw it in again after reversing top and bottom.
5. Adjust the height of screw in approx. 8mm above the Plate and then, tighten the small screw by an Allen wrench.
6. Put the Plate Cover back.

Opening the Tripod Legs
Be sure to open all three legs completely in order to prevent camera shaker, or accidental tip overs caused by unstableness.

Inverting the Center Column
Always remove the Pan Head when replacing the Center Column.
Remove the Center Column Base Stopper turning to the way of arrow.
Loosen the Center Column Stopper and the Locking Collar, and then pull out the Center Column.
Insert the Center Column from the lower side of Main Body, and tighten the Locking Collar and the Center Column Stopper.
Make sure to re-attach the Center Column Base Stopper, in order to prevent the Center Column from falling out.
By inverting the Center Column, it is possible to do copy, and close up work.

Inverting the Center Column(Continued)

Caution
Soft Grip is consumption and cannot be used permanently. Please replace it whenever ragged.

Prohibition
The bolts of the Pan Head marked “” should not be adjusted nor operated.

Inverting the Center Column(Continued)

Care of the Tripod

SLIK CORPORATION
**Pan Head Section**

**Using the Pan Head**

- **Using the Quick Shoe**
  - Correctly installed you will hear a “click”, and the Quick Shoe will rotate 360°.
  - Fix the Quick Shoe at a desired position by closing the Locking Lever.

- **How to get low position shots**
  - Flip up the Leg Lock Lever to extend or shorten any of the individual leg sections to the desired length, and press the Leg Angle Adjustment Lock out. There is a choice of two other angle positions.

**Pan Head Section**

**Removing the Pan Head from the Center Column**

- Please exchange by the following method to attach other heads or accessories to this leg. Fix the Center Column of the legs firmly by both the Center Column Locking Collar and the Center Column Stopper. Next, tighten the Panning Lock Knob of the head firmly. The Pan & Tilt Handle and the Vertical Tilt Handle are grasped and then, turn the head counter-clockwise forcibly. The head loosens now.

- Set the new head, or accessory on the tripod’s threaded post, and turn clockwise until it comes to a stop. Tighten the Pan Lock Knob and turn clockwise slightly more. Do not attach camera directly to the threaded post of the Center Column. This can damage both camera and tripod.

**Attaching the Pan Head**

- **Attaching the Pan Head (Continued)**
  - When attaching the Pan Head to a tripod with a small thread (1/4) use the optional small thread adapter.

- **Extend the Tripod Legs**
  - To change the angle of each leg, close the Leg slightly, and then pull the Leg Angle Adjustment Lock out. There is a choice of two other angle positions.

**Center Column Section**

**Using the Center Column**

- Hold onto the Pan Head with one hand, and loosen the Center Column Stopper and the Center Column Locking Collar with the other hand. Raise or lower Pan Head to desired height, and while maintaining a hold of the Pan Head, tighten the Locking Collar and the Stopper.

- **To avoid unnecessary camera vibrations, try to keep the Center Column height to a minimum. Also use the larger legs first, when extending the legs.**

**Tripod Section**

**Three Position Adjustable Legs**

- **How to get low position shots**
  - You can get lower height.
  - Remove the Center Column Base Stopper and then, remove the Lower part of Center Column. Put the Center Column Base Stopper on the Upper part of Center Column.

- **Extending the Tripod Legs**
  - You may injure your hand by a sudden fall, if you let go of Pan Head before locking the Collar. Turn the Locking Collar with your fingers on the side of the Collar.

**Caution**

- **Caution**
  - When loosening either the Pan & Tilt Handle, or the Vertical Tilt Handle, take precaution by keeping a firm grip on the handle until the Pan Head is locked down.

**Prohibition**

- **Prohibition**
  - Do not attach camera directly to the threaded post of the Center Column. This can damage both camera and tripod.

**Safeguards during operation with a Camera**

- **Caution**
  - The camera may fall suddenly when the Locking Lever is loosened, causing damages and injuries. Always hold on to the camera during such operation.

**Caution**

- **Caution**
  - When loosening either the Pan & Tilt Handle, or the Vertical Tilt Handle, take precaution by keeping a firm grip on the handle until the Pan Head is locked down.

**Caution**

- **Caution**
  - You may injure your hand by a sudden fall, if you let go of Pan Head before locking the Collar. Turn the Locking Collar with your fingers on the side of the Collar.

**Three Position Adjustable Legs**

- **How to get low position shots**
  - You can get lower height.
  - Remove the Center Column Base Stopper and then, remove the Lower part of Center Column. Put the Center Column Base Stopper on the Upper part of Center Column.

**Tripod Section**

**Three Position Adjustable Legs**

- **How to get low position shots**
  - You can get lower height.
  - Remove the Center Column Base Stopper and then, remove the Lower part of Center Column. Put the Center Column Base Stopper on the Upper part of Center Column.

**Caution**

- **Caution**
  - When loosening either the Pan & Tilt Handle, or the Vertical Tilt Handle, take precaution by keeping a firm grip on the handle until the Pan Head is locked down.

**Prohibition**

- **Prohibition**
  - Do not attach camera directly to the threaded post of the Center Column. This can damage both camera and tripod.
