Carrying the Tripod

- Prohibition

- No
- Yes

Carrying a tripod with a camera left on can result in unexpected accidents. We, therefore, recommend you to remove your camera while carrying the tripod.

- Prohibition

- No
- Yes

Do not attach a camera directly to the attachement screw of the Center column. This may damage both your camera and tripod.

In case of the shock given to tripod by force

- Caution

- No
- Yes

When the shock has been given to the tripod and legs such as falling down, check well whether there are cracks, flaws, etc. on the pipes or not. When you find some cracks, flaws, etc. on the pipes, stop to use it and ask to repair. It may be wounded when some of fibers came out from the pipes. In that case do not touch it.

Clamp head

Prohibition

Do not use an optional Clamp head for a carbon fiber tripod. The pipe may be damaged.

Attaching a camera

Remove the Quick release plate turning the Quick release plate locking lever. In this case, do not put the lock lever back by force as it has been stood by the Stopper.

Insert the Camera mounting screw to the tripod attachment screw of your camera. Turn the Camera mounting screw knob and fix firmly.

How to get vertical position (Continued)

1. Loosen the Pan head locking lever. 2. Turn your camera to the front. 3. Turn your camera to the front.

6. Adjust pan & tilt handle to get vertical position.

Removing the Head from the Center column

Attach the plate slit slant from the Plate locking lever. It will be closed automatically after attaching.

Fasten the Plate locking lever. Make sure the Quick release plate is fixed firmly.

Use the following instructions when you change the Pan head or attach accessories. Lock the Pan & tilt handle, then grasp the Pan & tilt handle and turn the head counter-clockwise to loosen.

Set new head or accessories on the tripod's threaded post, and turn clockwise until it comes to a stop. Tighten the Pan & tilt handle, and turn clockwise slightly more.

Using the Pan head

When you unlock the handle, your camera is free to move.

When you unlock the Camera platform locking knob, the camera is free to rotate horizontally.

Using the Pan head

When you unlock the handle, your camera is free to move.

When you unlock the Camera platform locking knob, the camera is free to rotate horizontally.

Three position adjustable legs

To change the angle of each leg, close the Leg slightly, and then pull the leg angle adjustment lock out. There is a choice of two other angle positions.

After choosing the desired leg angle, securely push in the adjustment lock.

Inverting the Center column

Caution

Remove the Pan head when inverting or replacing the Center column.

Remove the Center column base stopper turning to the direction of arrow. Loosen the Center column stopper and the Center column stopper, Make sure to re-attach the Center column base stopper in order to prevent the Center column falling out accidentally.

Prohibition

Please do not turn the Center column stopper while a Center column or optional Short center column attached on. The internal parts may be damaged.

Caution

Center column base stopper must be attached.
