Operating Instructions
Thank you very much for choosing SLIK Carbon Series Tripod.
The SLIK Corporation has designed your tripod to be a sturdy,
rugged, dependable product that will provide you with many years of
satisfactory use.
Please take a few moments to read this operating instruction carefully
before use so that you can take full advantage of your Tripod’s many
fine features.
Retain this operating instruction in case you might want to refer back to it.

PRO 823CF

⚠️ Caution
Soft Grip is consumption and cannot be used permanently.
Please replace it whenever ragged.

Carrying the tripod
⚠️ Prohibition
Carrying a tripod with a camera left on can result in unexpected
accidents. We, therefore, recommend you to remove your camera while
carrying the tripod.

In case of the shock
given to tripod by force
⚠️ Caution
When the shock has been given to
the tripods and legs such as falling
down, please check well whether
there are cracks, flaws, etc. on
the pipes or not.
When you find some cracks, flaws,
etc. on the pipes, stop to use it and
ask to repair. It may be wounded
when some of fibers came out
from the pipes. In that case do not
touch it.

Clamp head
⚠️ Prohibition
Do not use an optional Clamp head
for a carbon fiber tripod. The pipe
may be damaged.

Setting up
⚠️ Caution
To prevent accidental equipment fall
or tripod tipping over, making sure
all levers, knobs and handles on the
tripod are securely tightened.
And all of the three legs are opened
all the way.

Equipment that can be
loaded on this tripod

Maximum loading capacity:

- PRO 823CF: 7kg
- PRO 824CF: 7kg
- PRO 723CF: 5kg
- PRO 724CF: 5kg

Do not exceed the specified
loading capacity.

Optional Accessory

SPIKE SET
Cat. NO. 618-410

Pan head mounting post
⚠️ Prohibition
Do not attach a camera directly to
the Pan head attachment screw.
This may damage both your camera
and tripod.
Head setting

Set the new head or accessory on the Pan head adjustment screw. And turn the head clockwise until it comes to stop. Tighten the Panning lock knob and turn clockwise slightly.

Extending the Tripod legs

When you extend the legs, please proceed from the upper section. When you fold the legs, please proceed from the lower section. It will be steady to grip the upper part of pipe just above the lock nut.

Prohibition

Do not remove the nut and take out pieces. If it has been removed, insert the pieces as per the above specification.

Three position adjustable legs

To change the angle of each leg, close the leg slightly, and then pull the leg angle adjustment lock out. There is a choice of two other angle positions. After choosing the desired leg angle, securely push in the adjustment lock.

Operating the Center column

A - Screw-type Center column stopper is used to lock or unlock Center column. B - Twist-type Center column locking nut is used to adjust a tension of the movement. The both of A and B must be locked for fixing Center column.

How to get low position shots

Remove the Center column base stopper, and then remove the Lower part of Center column. Put the Center column base stopper on the Upper part of Center column.

How to change the leg tips

The leg tips can be converted to the spike leg tips. (sold separately) To remove the rubber leg tip, hold the leg pipe tightly and loosen the rubber leg tip.

Prohibition

If you hold the leg pipe other than the lowest part, the leg pipe may be damaged. Always use the attached wrench for the conversion. The pipe may be damaged.

Prohibition

Do not turn the Center column stopper while pulling out the Center column. The internal parts may be damaged.

How to change the Panhead attachment screw

(For PRO 823CF and PRO 824CF only)

When you change to U3/8 screw, remove the Center column plate, and then loosen the fixing screw with a Allen wrench (2 mm width).

Care of the tripod

- DO NOT apply any grease or oil to this product.
- Clean with a mild detergent and a soft cloth only.
- DO NOT use close to flame. Avoid extreme heat.
