Using the pan head

1. Loosen the panning handle to move the head freely front and rear.
2. Loosen the panning lock knob, to rotate the head.
3. Loosen the vertical tilt handle to adjusted the level. The pan head is specially lubricated for smooth movement.

Attaching a camera

1. Hold the camera tightly, when the camera mounting screw turn to engage the threads.
2. Lock the camera tightly with the knurled camera locking knob.
3. Tilt the head forward and made easier to attach the camera, Two bubble levels are built-in for vertical and horizontal positioning.

Changing the camera mounting screw

1. Both 1/4" and 3/8" camera mounting screws are supplied. The knurled screw can be stored in the side of the camera platform.
2. Remove the camera mounting screw through the large end of the mounting track. It's a good idea to tighten the camera locking knob when a camera is not attached to prevent loss of the mounting screws.

Panning guide

A rotating scale at the base of the head makes it easy to set exact shooting angle. To begin, set the mark at the base of the head on "0".

Care of the tripod

• DO NOT apply any grease or oil to this product.
• Clean with a mild detergent and a soft cloth only.
• DO NOT use close to flame. Avoid extreme heat.

Specification

SH-909
Height 140 mm (5 1/2"")
Weight 1.7 kg (3lbs 13oz)
Camera mounting screw 1/4" tripod mounting screw 1/4"

SH-908
Height 135 mm (5 1/2"")
Weight 1.4 kg (3lbs 2oz)
Camera mounting screw 1/4" tripod mounting screw 1/4"

Components

Carrying the tripod

The tripod has been designed to handle equipment weighing under 12 kg (26 lbs 7 oz). Do not overload. Some equipment weighing over 12 kg (26 lbs 7 oz) may not balance well due to its weight distribution.

Carrying with a camera left on can result in unexpected accidents. We recommend you to remove your camera while carrying the tripod.

Equipment that can be loaded on this tripod

Setting up

Make sure all treads, knobs, and handles on the tripod are securely tightened and all three legs are opened all the way to prevent accidental equipment fall or tripod tipping over.

Install the pan handles

The pan handles are installed as shown with the handle on the left for pan and tilt movement. The handle on the right for vertical tilt. Both handles are same. You can install the handle either way.

Storage

Attach the head to the center column

Remove the vertical tilt handle from the panhead, and screw into the back of the pan & tilt handle.

The head is installed by screwing it onto the center column’s 3/8" threaded post hole.

Removing the head from the center column

Lock the panning lock knob tightly. Grasp the pan handle and turn the whole head counter-clockwise to loosen. Then loosen the panning lock knob and it will be easy to unscrew the head by rotating the base.
